

5th Squadron 7th Cavalry Monthly Newsletter

October 2023

Dark Horse Troop was able to get some great training in on recovery procedures for the Abrams. Soldiers learned how to properly ground guide, install the tow bar, and remove the final drive component.

The Squadron had the privilege of awarding some of its upstanding Soldiers with a Squadron Coin or AAM for their exemplary performance in the past weeks events.

Concealing a vehicle as large as a Bradley is no easy task. Soldiers from Blackfoot Troop work together on keeping their vehicles hidden from enemy observation. "Now you see me, now you don't."

Blackfoot Troop's Red Platoon had some great training on OP emplacement. Soldiers worked on how to maintain stealth while gathering mission critical information on the enemy.

5-7 had the pleasure of witnessing 1SG O'Donnell of Diesel Troop being re-enlisted after the Monday motorpool formation. 1SG O'Donnell has been a tremendous asset to the SQDN and we're thrilled that he's decided to continue his career in the Army!

We had a great time seeing all the awesome costumes as families walked through the various haunted COFTs hosted by the Troops for Halloween. Already looking forward to next year!
